Ber Telegraph to The Times.
BERLIN, Feb. 4.—|By Cable and Associated Press.] Commenting upon the action of the United States Senate in voting a credit for a coaling station at Pago-Pago, the National Zeitung says: "America ob-tained the right to establish a coaling station from Malletoa, but she did not take ad-vantage of the privilege within the specified time. The establishment of a station now

would appear to be an American protest against German annexation."
The North German Gazette tonight makes an allusion to Pendieton being unwell. This is construed as an indication that the appointment of a new American Minister is desirable.

the statu oue prior to the dethronement of Malleton."

"Suppose the Germans obj. to this, and insist upon seizing the is indeas proper compensation for personal and material damages suffered by them?" was asked.

"There is no likelihood that they will do that. If they do we certainly should not permit it. Whatever the newspapers may say there is nothing in the situation that would justify on the part of either nation a breach of peace until every means was exhausted to bring about a peaceful and quiet settlement of this controversy. I say therefore, first, we want to assert our rights and maintain and uphold them, and nobody will call them in question. Next we want to do what we sught to do toward Samo-ans. Therefore I am willing to vote any sum of money to enable the President either to conduct negotiations, to make surveys of a harbor or to see hitter information in regard to the denuty there and place it at the discretion of Mr. Cleveland or Gen. Harrison, and I have no doubt, with the powers thus given to them to send agents there or to send ships, they will bring about a solution of this simall controversy. I believe that this contention can be settled by a straightforward, many negotiation entered into by the three great Christian powers interested."

He Invites a Conference at Berlin on

washington, Feb. 4.—By the Associated Press. Count von Arco Valley, German Minister, called at the State Department this afternoon and had a conference with Secretary Bayard in regard to Samoan affairs. He informed the Secretary that ne had received a communication from Prince Bismarck to the effect that the German Government proposes a resumption at Berlin of the consultations which took place in Washington between representatives of Germany and Great Britain and the United States in 1887 on the subject of Samoa.

The above information was furnished to the press by Secretary Bayard with a statement that it was all he would say on the subject at present. It was therefore impossible to obtain today the full text of Prince Bismarck's communication. It is probable, however, that it will be transmitted to Congress tomorrow or next day with Secretary Bayard's views on the subject with Secretary Bayard in regard to San

The resolution was adopted.

The Fuglish Grain Trade.

London, Feb. 4.—The Mark Lane Express, in its weekly review of the grain trade, says: "English wheat was depressed and prices show an average decline of 1s. Sales of English wheat during the past week were 52,790 quarters at 29s. 0d., against 60,744 quarters at 30s 8d during the corresponding week last year. American flour made of 1388 wheat sells at a fair price. Foreign wheat decreased is, parly owing to weakness in English wheat and partly to the thaw that occurred at Odessa, enabling freighted steamers to get away. Barley is 3d lower. Corn was firm. Linseed oil declined 6d. At today's market foreign wheat was steady, flour weak, barley and oats firmer."

THE CITY SOLONS.

Things Out of the General Routine

Testerday was a very lively day in the Council, and there were several incidents during the afternoon to relieve the usual dull monotony. The first thing that caused any excitement was over J. Marion Brooks's any excitement was over J. Marion Brooks's protest against paying the full cost of the Central-avenue grading, on the ground that the railroad was liable, and had paid for a portion of the work. It came out in the debate that Contractor Burlingame could not tell whether he had been paid once or twice for certain work which he had done, or whether he had bid on the entire street, or only on that portion for which the railroad was not liable. When asked the point-blank question as to whether he thought he was entitled to the smoney, Burlingame came out boldly and said that he did not know; that was a question for some lawyer or judge to decide. The talk was growing very red in the face under the cross-examination to which he was subjected, when Mr. Cohn threw a bomb in the shape of a motion to deduct \$1600 from the bill, that amount having been paid by the railroad company, and that Burlingame be paid the remainder. The contractor strenuously objected to this mode of procedure, yelling out in an excited

having been paid by the railroad company, and that Burlingame be paid the reinainder. The contractor strenuously objected to this mode of procedure, yeiling out in an excited manner, "You can't do it," when he was laughed down by the Council and sat down, after spending ten or fifteen minutes in trying to find out whether work had been paid for twice, without success, a special committee was appointed to investigate the matter, and report at the next meeting, when it was dropped.

The new City Hall was the next proposition on which the municipal Solons got at loggereeads. The report submitted, showing that it would take \$75 to reduce the tower five feet, was a tough nut to crack, and while the members were trying to figure it out on some satisfactory basis, Mr. Earl set them all by the ears by solemnly declaring that the structure was in an ucaste coudition, there being several cracks in the wail, and that it was liable to tumble down. This was a corker, and as soon as the able legislators recovered from their surprise, they adjourned for 15 minutes and went over to see the building for themselves. Several small cracks were discovered, but nothing dangerous, and when Mr. Earl was twigged about it later, he said that was all right, he "had raised a breeze anyway." The matter will be looked into further at the special meeting today.

The saloon ordinance was the main point of contention, and almost every member of the Council had something to say about it. As soon as the ordinance was read a motion was made to lay it on the table. This was lost by a tie vote, after which Dr. Sinsa-

of contention, and almost every memoer of the Council had something to say about it. As soon as the ordinance was read a motion was made to lay it on the table. This was lost by a tie vote, after which Dr. Sinsabaugh made an eloquent plea for the adoption of the ordinance, saving that every instinct of decency demanded it. Mr. Humphreys also spoke in favor of the ordinance, as did Mr. Shafer, Mr. Bosbyshell, Mr. Ford, and others. Dr. Bryant, who aspires for the mayoralty, and knew that the resolution would come up, got excused before a vote was reached, quietly slipped out, and thus saved putting himself on record in case he should by any accident get the nomination. The fight was very lively throughout, and when the measure was knocked out, on account of not getting a sufficient number of votes, it requiring ten, whereas but seven voted, as against five against it, but little interest was taken in the proceedings, and as soon as possible and output and undergourness was also possible and an adiournessed was had until this morning. the proceedings, and as soon as possible an adjournment was had until this morning.

HISTORICAL SOCIETY.

Several Important Subjects Discussed Last Night
The Historical Society of Southern Callfornia held its regular monthly meeting in the Council chamber last night, with President E. W. Jones in the chair. The minutes of the meetings of January 7th, 14th and 21st were read and approved.

FREE LABOR EXCHANGE

A Great Boon for Poor People. For a long time this city has been in need for a long time this city has been in need of a free labor exchange. There are thou-sands of poor people in every large city who have no means to pay premiums for situations, and they are compelled to strag-gle about the streets and take chances on getting a situation. In San Francisco the newspapers have been compelled at several periods to run column after column of free

night, and locked up for begging.

A Remnant of the Cliff-dwellers.

ALBUQUERQUE (N. M.), Feb. 4—A remnant of the cliff-dwellers, supposed to be extinct, is said to be dwelling in the San Mateo Mountains. They are very small—not over three feet in height—and wild. They have been seen also in the Black Range, and as scougas the snow melts parties will go out to capture them, if possible. The facts are veuched for by reliable men.

The Council met in regular weekly session in the City Hall yesterday morning, with President Kuhrts in the chair, and the following members present: Bosbyshell, Bryant, Cohn, Ford, Hanley, McNally, Sin-sabaugh, Threlkeld, Wilson, Shafer, Mori-

arty, Earl and Humphreys.

A communication was received from the City Attorney in regard to the city election, in which that officer stated that in his opin-ion an election must be held within 30 days

in which that officer stated that in his opinion an election must be held within 30 days from the passage of the city charter by the Legislature. The communication was received and filed, and, after debate it was decided to hold a special session today, at which the details of the election could be arranged and the time fixed. The Clerk also stated that he had received official notification of the passage of the charter.

The Bridge Committee reported that after a careful examination of Aurora street, the location of the railroad tracks and the approaches from each way, it was of the opinion that it would be for the best interests of the city and the public in general that the plaus presented by the Southern Pacific Company for building a bridge from Buena Vista street across and over its tracks and making a right-angle turn, and bringing the approach out on the line of San Fernando street, be adopted. The plans and specifications, together with all the details, to be first submitted to the City Engineer and the City Attorney, together with the Bridge Committee, for approval. Adopted.

A communication was received from the Richmond Fire Alarm Company stating that it had fulfilled its contract with the city and asking for \$5000, being the balapce due. Referred to the Fire Commissioners and Finance Committee.

A resolution offered by Mr. Threlkeld allowing the Water Overseer three deputies at \$50 per month, instead of two deputies at \$50 and one clerk at \$50 per month, caused considerable debate, and was disposed of by a warrant being drawn for \$50 in favor of the clerk.

by a warrant being drawn for \$30 in favor of the clerk.

The Finance Committee handed in the following report: We have examined reports of Mayor upon sales of water, Chief of Police upon the collection of delinquent licenses, Auditor's trial balance for December, and the Auditor's balance for the week ending January 26th, and recommend that the same be approved and filed. So ordered.

the same be approved and filed. So ordered.

Upon reports of the City and Citizens' Water Company the committee asked further time. Granted.

That the petition of S. Strohm for the return of \$118.54, on account of double assessment, be granted. Adopted.

That the resolution authorizing the payment of \$100 per month to the Chief of Police for secret service purposes and incidental expenses be resoinded and such payment be discontinued. Adopted.

The committee, after reporting favorably upon numerous bills, recommended that the bill of J. Harry Conlan for decorating the police station be referred back for detailed statement.

police station be referred back for detailed statement.

Justice Austin presented a resolution asking the Council to provide him a suitable courtroom by March 1st. Mr. Austin stated that according to the new charter and upon the election of two police judges he would be compelled to vacate.

Mr. Cohn moved that the motion be laid upon the table. Lot.

Mr. Cohn moved that the motion be laid upon the table. Lost.
Mr. Ford moved that a special committee be appointed to confer with the Board of Supervisors to ascertain if the rooms formerly occupied by Judge Clark could not be secured for Justice Austin, and report at the next meeting. Carried. Messrs. Ford, Bryant and McNally were appointed as said committee.

said committee.

The report of the Board of Public Works, as published in The Times Sunday morning, was then taken up, and the various recommendations adopted, as far as was gon.

The resolution awarding to D. F. Donegan the contract for grading, graveling and curbing of First street from Fort street to Bunker Hill avenue for \$10.95 per lineal foot, was adopted.

was ad opted.

The City Surveyor was instructed to make estimates, profiles and plans to the approaches to the Seventh and Ninth-street bridges.

The Council then adjourned until 1:30 o'clock in the afternoon.

Atternoon session. The Council met at 1:40 o'clock, with President Kuhrts in the chair and a quorum

Consideration of the report of the Board of Public Works was then resumed and of Public Works was their resumed and the remaining recommendations adopted. Mr. Threikeld presented a couple of bills from the Harper-Reynold Company for work on the zanjas, which none of the Zanja Committee knew anything about, and he wanted the Council to take some action

he wanted the Council to take some action in the matter.

On motion of Mr. Cohn, Mr. Collins, former chairman of the Zanja Committee, and Mr. Eaton, former City Engineer, were requested to appear before the Council and make a statement at the next meeting.

Mr. Sinsabaugh stated that there was a very important suit pending against the members of the old Council, and that judgment had been given against them for \$100,000, and he asked that legal talent be at once employed to look after their interests. On motion of Mr. Cohn, Gage & Robarts were employed to defend the suit, at an expense of not to exceed \$500. The suit in question is that of Mrs. McCloud, and grew out of a case of smallpox at the pesthouse, the details of which have been heretofore published.

lished.

The notice of intention to grade and gravel hayward street was rescluded on the protest of a number of the large property owners.

President Kuhrts stated that the next order was railroad business, and Mr. Knox asked that he be allowed to make a state-

ment.

Mr. Threlkeld moved that the whole matter of raliroads be postponed for 30 days, so that the new Council could take action on it, when Mr. Knox asked to be allowed to make a statement, after which Mr. Threlkeld withdrew his motion, and the Cierk was about to read the copy of the franchise for the Noiton road, when Mr. Cohn objected, saying that the original paper must be submitted. The original copy could not be found, and Mr. Threlkeld renewed his motion for a postponement, when a long motion for a postponement, when a long discussion ensued, after which the matter was laid over until 3 o'clock, on motion of Mr. Shafer, to give the Clerk time to find the original paper.

The report of the City Surveyor was presented, and the various recommendations approved.

approved.

A petition was received from the Utah Railroad Company, asking permission to make certain changes in their bridge over the Los Angeles River, at Downey avenue, in substituting two admitional plans for a concrete abutment, as provided in their contract.

After a lengthy debate the matter was referred to the Bridge Committee and City Attorney, with power to act.

The report of the Chief of Police was submitted and placed on file, as was also the report of the Superintendent of Streets, who recommended that the protest of J. Marion Brooks, in regard to assessments for streetgrading on Central avenue, be denied. Brooks claims that Burlingame has received part of his payment from the railroad company, for which he did not give credit.

ad company, for which he did not give edit.
Burlingame then made a statement, in place the did not explain anything, except at he collected the money, and did not low whether the money had been legally did or not. He continued to talk for some no, saying that he nad been paid by the liroad company, but could not say sether he had been paid twice for the me work, and found refuge in saying at he knew nothing about it. Mr. Sinsaugh and Mr. Shafer said that there was me very I see work somewhere, and, on the nothing of Messrs. Sinsabaugh, the whole matter deport at the next meeting.
The Building Committee reported in your of papering the interior of the City ison, which was amounded so as to read life washing, and so ordered.

In. Hanley called up the matter of emitter of the city ison, which was amounded so as to read life washing, and so ordered.

ploying counsel to defend the suit against the Council, saying that Gage & Robarts could not be had, and asking that immediate action be taken. Assistant City Attorney Dunn said that Gage & Robarts would not touch the case for less than 2500. Anderson, Fitzgerald & Anderson were then retained at a fee of \$500. A committee of three, consisting of ex-Mayor Workman, ex-Councilman Collins and Mr. Hanley, was also appointed fo look after the matter. A report was submitted estating that it would cost \$75 to reduce the tower of the new City Hall fave feet, as recommended by the experts. A lengthy debate ensued, a number of Councilmen not being able to understand why it should cost money to make the tower lower.

Mr. Earl said that the building was already badly cracked and falling down, and he thought it would be better to stop work, as it was likely to come down.

Mr. Sinsabaugh said this was a rather sensational statement, and the talk continued for some time, when Mr. Cohn moved that if Mr. Earl's statement was correct that no more money be paid. This brought Mr. Ford to his feet, who said that the contractor should have his money, and would get it. The debate was getting rather warm, when Mr. Earl moved that a recess of 15 minutes be taken and the Council inspect the building in a body. This motion prevailed, and the entire Council went over to the building and went through it, and when the Council reconvened Mr. Cohn moved that when an adjournment be had it be until 10 o'clock this morning, and that the architect be notified to appear before the body at that time and explain certain things about the building which had come under the observation of the Council. The motion prevailed.

The Sewer Committee's report was presented, recommending that a sewer be laid on Water street, and a notice of intention for the work under the Vrooman act be advertised for.

The matter of the Times-Mirror Company and Frick Bros., in regard to their sewer assessment, was referred back to Frick Bros., the Council having no jurisdictio

and Frick Bros. in regard to their sewer assessment, was referred back to Frick Bros. the Council having no jurisdiction in the case.

The report of the Zanja Committee was presented, and the various recommendations adopted. Among the suggestions was one that open ditches south of First street be covered, and a pipe substituted for the ditch along San Pedro street.

The Committee on Street Naming presented its report, saying that the two principal causes of trouble were giving the same same street different names, and giving the same name to different streets in different portions of the city, which had been corrected, and presented an ordinance of 39 pages making the changes. The Clerk commenced to read the ordinance, and had proceeded a few minutes, when the matter was postponed until tomorrow.

The Board of Health reported, recommending the changes of the cow limits adopted at the meeting of the board Friday and published in The Times. Mr. Cohn moved to postpone the whole matter to 30 days, which was lost, and Mr. Woodnead addressed the Council in opposition to the proposed change. He was followed by Mr. Blunchard, who was equily anxious to have the limits extended, saying there were at least two cases where cow-yards were a nuisance, the cause of disease, and a disgrace to the city, and he shought they should be suppressed.

Remarks were also made by Dr. Bryant, Mr. Shafer, Mr. Bosbyshell and others, after which the report was adopted, and the Clerk was instructed to have the ordinance printed.

Action on printing the Health Officer's report was deferred, on objection by Dr. Bryant, Mr. Shafer, Mr. Bosbyshell and others, after which the report was adopted, and the Clerk was instructed to have the ordinance printed.

The recommendation of the Police Commissioners that Humane Officer Wright be paid a salary of \$40 a month was adopted, and the table.

The recommendation of the light at Diamond street and Belmont avenue from 300 to 900 candle-power was adopted.

The matter of the Eight and Hope-street light was

The Board of Public Works recommended that West Adams street from Figueroa to the city limits, be graded and graveled, which was adopted.

The Zanjero was instructed to have the dam at the head of the irrigation ditches repaired from and after the 20th of the month.

Bids were presented from Fred W. Barron to grade and gravel Collado street for \$8.57 per foot; A. S. Heitchew, Daiy street, \$1.58; Chase & French, Daly street, \$1.58; Chase & French, Daly street, \$1.58; Chase & French, Daly street, \$1.59; Cents per foot; P. Bachman, Daly street, \$1.59; Cents per foot; Boyd & Calley, Collado street, \$3.57; H. T. Crabb, Daly street, \$1.26.

Knoch and Peeple & Peters presented bids for printing the city ordinances, the first at \$1.60 per page for brevier and \$2.55 for nonpareli, and the latter at \$1.54 and \$8.14 respectively for the same work. The Herald and the express also put in bids, the first at \$2.65 per page tor brevier, and the latter at \$1.25 for brevier and \$2.25 for nonpareli. All of the bids were referred to the proper committees.

Herald and the express also put in bids, the first at \$2.05 per page for brovier, and the latter at \$1.25 for brevier and \$2.25 for non-pareit. All of the bids were referred to the proper committees.

A number of resolutions of intention to grade and gravei certain streets were read and ordered printed.

The ordinance closing saloons from midnight to 5 o'clock in the morning, and nxing the penalty at \$300 for each offense, was read, and Mr. Wilson moved to lay on the table, while Mr. McNaily moved that it be indefinitely postponed. Mr. Humpbreys asked that the roll be called on the motion to lay on the table, while Mrs done, and was lost by a vote of 6 to 6, Hanley, Kuhrts, Morlarty, McNaily, Wilson, Threlkeld voting to lay on the table, and Bosbyshell, Earl, Humpbreys, Shafer, Sinsabaugh and Ford ag inst it.

Mr. Sinsabaugh made a strong argument in favor of the ordinance, saying that it should be passed in the interest of the decent people, and that it was just as little as could be asked. He wanted to put himself on record in this matter, and wanted to vite on it.

Mr. Wilson opposed the ordinance, as did Mr. Hanley, and Mesars. Humpbreys and Bosbyshell advocated it. The penalty was then reduced to \$100, and a v-te taken, which resulted as follows: For the ordinance—Bosbyshell, Earl, Humpbreys and Bosbyshell advocated it. The I ame him-Brown Fight.

The Laughlin-Brown fight was thoroughly aired in the Justice Courts yesterday. Miss Lucy Brown (so called) was arraigned before Justice Savage for assault, and was fined \$10. Then Mrs. Laughlin was placed on trial before Justice Austin, and the whole circumstances of the affray were aired a second time. It was in evidence that Mrs. Laughlin tried to pull Miss Brown out of her buggy and tore her dress, and Miss Brown whacked Mrs. Laughlin on the head with a green willow stick. At a late hour the witness still occupied the stand.

AND OUTS OF POLITICS STILL DISCUSSED.

Will the Parties Consider It Ob-ligatory to Renominate the Offi-cers Recently Elected? — Mans-field vs. Bryson in the Fight for the Mayoralty.

Wire-pullers and office-seekers are working night and day, and the coming fight promises to be one of the hottest that Los Angeles has ever seen. The chances are that the election will be even more corrupt, if possible, than was the last municipal election, for all of the tough element in the city are putting on their warpaint, and are already beginning to look after the office-seekers with the biggest sack. The various piece clubs are not sleeping, by any manner of means. They are better organized now than ever before, and if they don't draw some substance from those who are willing to be bled, then it will be funny.

The Dem crats hope to kick up a big row in the Republic n ranks through the antics of the Prohibitionista. They have already induced the "Probs" to call a convention, and they are now doing all in their power to induce the cold-water people to indores their slate.

The present officeholpers are greatly exercised over their prospects before the coming conventions. Both Republicans and Democrats who were elected at the last city election seem to think their parties will go back on them, although they have served but a few mooths. This would bardly be the "proper caper," to use a slang expression, for the men were elected to serve a full term, and it is not their tault that the new charter has come into effect before the expiration of their term. It can be taken apartifor transportation and the heaviest piece in it weighs only 600 pounds. It is the design to drag the separated parts up the trail on sleds made for the purpose.

At the summit a dome will be built for the telescope and a four-room house for the occupancy of the observers.

It is understood, of course, that this is the nucleus and initiatory step for the observatory proposed to be established on Wilson's Peak under the auspices of the University of Southern California. J. de Barth Shorb of San Gabriel has joined forces with Mr. Spence, it is said, and the two will furnish the principal sinews of war for the enterprise. Mr. Shorb is not only interested in the cause of science, but he would like to see the observatory established on Wilson's Peak as a memento of the late Don Benito Wilson, his father-in-law.

A Handsome Purse Sent Up to the State Tressurer.

It footed up the he went to make an accounting for the proportion of Los Angeles taxes to be covered into the State Treasury. It footed up the handsome sum of \$438,012,28, and this was turned over by Treasurer Banbury.

As a matter of interesting comparision it may be stated that this sum is next to San Francisco's, the largest-paid over by any county in the State, exceeding Alameda county's pro rata by \$150,000.

The funds remaining in the county treasury were yesterday apportioned by the Board of Supervisors, as may be seen by reference to a report of their proceedings published elsewhere.

The county now has \$55,000 on hand to redeem outst-nding bonds.

A feature which is especially pleasant is that the Southern Pacific Railroad Company has paid its taxes this year—the first time in about ten years.

A Plumber Takes a Headlong Pinnes.

A plumber named John Sykes, aged 35 years of age and a single man, while at work on the McLean & Lehman building, at 150 South Main street, fell, at 5 p.m. yesterday, a distance of 35 feet from the roof to the first floor, striking the top of his head on the joists of the second story. He passed on through in his flight to the first floor, striking on his back. He sustained a deep cut in the top of his head, but the physician, Dr. Buell, says it is not seriously injured, nor is his back broken, aithough he was thoroughly shaken up. He did not lose consciousness, and will most probably be around again in a short time. The accident was caused by the plank on which he was standing breaking and precipitating him down head foremost. e More Excursion Allowed to Go Out on the Santa Fe-A Reporter Strike on the County Hond-Atch

There was some kind of a change at head-quarters relating to the excursion business in San Francisco, yesterday, for General Passenger Agent H. B. Wilkins of the Santa Fé Company on this coast, telegraphed from that city to his agents here that the regular Phillips excursion will be allowed to go over the road next Thursday. The local agents do not know what this means, for their last orders were not to allow any excursions to go out until the dispute is settled, but Mr. Wilkins's dispatch proves that there is something in the wind.

Yesterday morning it was reported on the streets that all of the men on the new Los Angelee County Ralirosd, between this city and Santa Monica, had goue out on a strike. The company's office, at No. 4 North Spring street, was visited by a Times man, and the officers declared that the trains were running regularly and that they had not heard of any contemplated strike. It is rather early in the month to be able to tell whether there will be an increase over last month or not. But the agenta, both freight and passenger, declare that the opening is much better than last month, and they are all unanimous in the opinion that business is much better than it was at a corresponding time last year.

A traveling agent for a big excursion company said to a Times reporter yesterday.

company said to a Times reporter yester-day;

"I have just returned from the North. I had not been up there for some time, and from the amount of blowing done by the papers of that section I thought they were having a regular boom, but it is not what it is cracked up to be by sever I jugs full. Their whole anxiety seems to be to find out what we are doing down here. About the first, question is 'How about the boom in Los Angeles' Are you having as many visitors this year as last? and a thousand other questions which show how anxious they are about our welfare. If you tell a morthern citrus beit man that Los Angeles is as dead as a defunct mining camp you can morthern citrus beit man that Los Angeles is as dead as a defunct mining camp you can morth the for those all do y and far into the night, if he can beg, borrow or steal money enough to treat you on. They are so jeal-ons of Southern California, that they can't see straight.
"No they have had onite a little boom up

ous of Sonthern California that they can't see straight.

"No, they have had quite a little boom up there this winter, and they are in a fair way to get their share of eastern travet from now on, but they will never be able to build up either a winter or summer resort to compare with ours. We have the cilimate and we can sit back and laugh at then. Our watering-places are far abead of them in every sense of the word. A man has to have a constitution like an elephant to stand the cold water, either at Santa Cruz or Monterey, while at any of the watering-places in Southern California a person with only a quarter of a lung and an ounce of blood c.n kick around in the surf to his heart's content."

Next Thursday a special orange train will leave San Bernardino for the East. It is the first big orange train of the season.

THE DROP IN ATCHISON.

A special to the Globe-Democrat from Boston says:

A special to the Globe-Democrat from Boston says:

"The shrinkage of \$50,000,000 in the market value of the Atchison stock alone luring the past 19 months has forced upon the stockholders a financial strain that has been keenly feit by all, and as much the greater part of this stock has been invested in and around Boston, the burden has weighed the heaviest upon the Boston market. There is not a town within a radius of 100 miles of Boston which does not hold some silbres of Atchison stock. Most of it is held by persons living within sight of the State Bouse, but yet it is so widely distributed that the average amount of stock held by a single individual would not exceed four shares. With so many shareholders to bear the burden it was impossible that many should be wrecked. Yet it is impossible to tell the amount of misery caused by the loss of dividends to small holders of the stock. There are hundreds of instances where persons wh were depending upon Atchison dividends were compelled to give up the luxuries of life during the past six months. In the the swell Back Bay district in this city there were more "stay-at-homes" last summer than ever before simply because the break in Atchison stock made vacation trips too much of the nature of luxuries. There have been fewer small receptions and costly dinner parties, but other causes have been assigned.

"There is one rich old man in this city."

There have been fewer small receptions and costly dinner parties, but other causes have been assigned.

"There is one rich old man in this city, more than 90 years of are, whose income suffered a shrinkage of \$4000 in one month on account of the drop in Atchison, but this was not a privation to him or the members of his family. His other sources of income were sufficient to supply the staff of life, with a few extras.

"The failure of President W. D. Forbes of the Bank of the Redemption has been the only one which is claimed to be due to Atchison's weakness, but his accounts show speculation in other losing securities that would have brought about the same result. So far as can be learned, the large stock-bolders have held on to their Atchison securities, even at the heavy less that has followed, in the hope that better days will come. Many of these shareholders suffer no actual loss by the squeeze, because they paid little or nothing for their stock in the first blace. These people lose their interest, but they can afford to lose several thousand dollars and not feel it.

"The present fluancial depression has at least, demonstrated the solid standing of Boston capitalists. Mr. Brown, of the firm of Cordiny & Co., says that the result of the drop in ratiroad securities has been the drive capital into other channels. A million dollars of Boston money has recently been placed in Alabana, and much is being put in western land and street-railway stocks. Local and foreign stocks have also been handled by men who have become disgusted with western railroads. Copper stocks have always been a sleady source of revenue to Boston holders, and this income has largely offset the failure of railroad dividents.

"The directors of the Atchison system will decide the fate of the road. If they will decide the fate of the road."

has largely offset the failure of railroad dividends,
"The directors of the Atchison system will decide the fate of the road. If they give to the public the 'bottom facts' as to the road's financial standing the stock-holders will see them through the present trouble. But if there is any attempt to withhold information there is no knowing where the stock will land. Big operators say there is plenty of room left for another drop in prices, and threaten to sell 'short unless the directors make a square statement."

THE ARK FAMILY.

Mrs. Wong Still Determined on a livorce.

Mrs. Ark, the Chinese woman who left her husband, Wong Ark, and came to the police station Sunday morning for protection, was yesterday released and was taken in charge by Mrs. Watson. The woman claims that her husband slapped her is the face, and says that she will not live with him again. She says she wants a divorce, and will go to the Chinese mission. Ark made every effort to get her back, but she would have nothing to do with him. The Chief of Police got an interpreter yesterday morning, who explained to the woman that she was at liberty to do as she pleased, as he had no right to hold her. She was then released and went off with Mrs. Watson, What further steps will be taken by her husband to get her back have not yet developed.

A BAD DIMOND.

He Works the *mployment Fake with Skill.

There was great excitement in front of No. 20% North Spring street yesterday morning, and as early as 6 o'clock probably 200 men had gathered on the sidewalk at the place, most of the men had blankets, and they looked like a gang of railroad hands starting off on a job, and on inquiry it was found that they were there to carry out an agreement with the People's Employment Agency, Dimond & Hardy proprietors, who have an office in room No. 9 in the building. The men had called at the office in answer to an advertisement inserted in the

had called at the office in answer to an advertisement inserted in the papers a couple of weeks ago, calling for 250 teamsters, isborers, cooks, etc., to go to the country. The men had called at the office, and, on the payment of \$2,50 each, had been engared to grade a road in the San Ferando Valley, near Newhall, being told to come back Monday morning at 6 o'clock, when transportation would be furnished them. They were promptly on hand, but the employment agents did not show up, and, after waiting for some time, the crowd went around to the police station, where they told Chief Cooney their story. The Chief, on hearing the facts, at once went down to the office to arrest the men, and as soon as Hardy showed up, he was placed under arrest and marched to the police station, where he was booked for obtaining money under faise pretenses. Dimond did not show up, and has evidently skipped for good. In the meantime Chief Cooney sturned to the office, when Hardy told if me he ad only been a pariner in the concern since the flat of January, and was willing to redeem all the receipts given since that time. He told a pretty straight story, saying that he had been taken in by an advertisement in the paper, among the business chances, staking that a half-interest could be purchased in a business paying from \$20 to \$30 a day for \$300, and he had gone into the scheme, paying Dimond \$30 cash, and giving his note for \$30 more. Dimond, he says, read him a letter purporting to be from a contractor named Hift, ordering 250 men, and he had engaged a number of them, taking \$3.50 each and giving them his receipts to the amount of \$172.50, when he was released. Hardy swore out a complaint against Dimond yesterday attention, and Hardy took his place at the window of the chief's office, and redeemed receipts to the amount of \$172.50, when he was released. Hardy swore out a complaint against Dimond yesterday attention, and he had engaged in the has owned up to. Chief Cooney is to do the likely to come into the office when the intending

J. M. Dunsmoor and F. E. Lowery, Deputy County Clerks, testified that Twine aputy County Clerks, testified that Twine appeared at the courthouse on October 9th last and asked for a marriage license for Lucy Ballinger and Juan Rogers. When asked if the young woman was of age, he repried that he did not know her age—she might be 35 or 40 years old. He was told that he would have to make an affidavit that she was over 18. Twine went out, but soon returned. He then took an oath that Mies Ballinger was of the proper age. Investigation developed the fact that she was eess than 17; hence Twine's appearance before the bar of justice.

Twine testified that he applied for the marriage license, but was not asked to make an affidavit regarding the girl's age. In fact, he never saw the young person. He applied for the license merely to accommodate Rogers.

A F Outer.

Last evening a telephone message was received from San Pedro, saying that the body of a man had been found who had been dead four or five days, and asking that the Coroner come down at once and hold an inquest, so it could be buried. As Mr. Meredith had not returned from Pasadena, where he went on professional business yesterday morning, the Justice of the Peace was instructed to act in the matter at once, and have the corpse disposed of.

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, new ready, is the most complete and in teresting publication of that character ever published in Los Angeles

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and country; a thorough exposition of our natural resources—mineral, vegetable, commercial and climatic, a review of the rises of progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-seeker, the homsseeker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information shout the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minures; time in writing the address you can send a friend more la cormation than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the frozen East with information that my lead them to join the army of pilgrims to Squthern California, to their own and this country sadvantage. Thus, whether viewed from the standpoint of friendship or self-interes: "well be seen that no better use can be made of a dollar than by purchasing the rewith ten copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure oan be bestowed in any other way for the same amount of money.

A MILLION dollars is the annual subsidy which England expends on its steam shipping in the traffic with the of South America. There are seven British steamship lines run ning regularly to the Argentine Republic, while our Government makes the munificent offer of \$10,000 to the American citizen who will establish one. In view of these facts it is not strange that there should be so few American steamers trading with South American ports. It is surprising that there should be any.

THERE is little probability that President Harrison will have eight Cabinet men officers to appoint. The agreement on the bill to create a Department of Agriculture, which a short time ago seemed possible, will not be secured. Save the Fruit.

The Pasadena Union, with much justice, calls attention to the very large amount of fine fruit which go to waste in that vicinity. The Union asserts that the annual value of such fruit wasted, would be not less than \$100,000 -a very large sum for a place of that size. As the Union says, hundred thousand dollars would keep in comfort a hundred families of five persons each, for a year, and would, at the same time, support other indus-tries, which would again employ many

Pasadena is not the only place in Southern California where such waste of fruit may be observed. It is an unpleasant feature of the suburbs of this city also. Thousands of tons of deciduous fruits go to rot this county every year, simply because the growers make no provision to dry, can, crystallize, or otherwise preserve such fruit as they cannot find a market for green. This, of course, discourages those who come in here with the view of raising fruits for a living. They naturally exclaim: What is the use of planting fruit trees, and tending them for years, when so much

fruit is already going to waste? This is, however, not the result of natural causes, but simply of lack of painstaking industry on the part of the fruit growers. Every man who grows fruit can afford to purchase one of the smaller family fruit driers, which are now made. He can also save a good deal of the fruit in the preserves, for winter use in his own family, thus saving a portion of his grocer's bill. Look at the small seedling oranges which are allowed to go to waste in and around Los Ange-Why can they not be converted

into marmalades and preserves? The fact is, that we need more thrift in California among our rural population. There is still too much, in State, of the old gold mining, wheat ranching, speculative spirit, which leads the farmer to turn up his nose at small industries and small economies to buy his vegetables, and perhaps his butter and bacon, because "he can buy it cheaper than he can grow it." Be fore we can expect to bring our lands up to their full development we must get our farmers to put as much care and economy into their work as the average merchant does into his business. It need not be inferred that the husbandman must be stingy, or deny himself any of the comforts of life. Our soil and climate will supply, not only necessaries, but luxuries, without stint, but the man who allows a part of the products of his labors to go to waste, does neither his land nor himself justice, and has to labor harder than should be necessary to make up for the leak in some other direction.

That Monstrous Tax-list

The enormous delinquent tax-list of the county, published yesterday, will, of course, be seized upon by outside papers as a text upon which to base a ong sermon on our "busted boom." In anticipation of this, we desire once more to call attention to the most disgraceful and outrageous manner in which the assessment and collection of taxes is carried on in this county. We have no hesitation in saying that at least two-thirds of the property contained in this list would have been kept out of the de-linquent list, had the taxpayers been given anything like a fair chance to pay their dues. The fact that and women had to stand in line for hours—and even days—for a chance to pay their taxes was fully commented on by us at the time. When, at last, they managed to reach the desk; they fre quently discovered that their property had been omitted from the roll altogether, or were told that the property was not on the roll, only to find it in the delinquent list, under their name, should it not be in their name, but under the head of "Unknown owners," whose name is Legion, the

AMUSEMENTS.

AT THE OPERA-HOUSE.-Mynheer Jan the new opera, was given its first presenta-tion to a crowded house last night. Although the faces of the chorus are unfamiliar, they are quite as pretty as ever and at the first firm, well-trained burst of sound one recognized the excellence which and at the first firm, well-trained burst of sound one recognized the excellence which makes a large part of the success of the company. Mr. Carleton's chorus always knows what to do, and how to do it, and go at once and cheerfully about it, and the result is an onward rush of spirit and harmony that always delights an audience and keeps them from worrying. The new opera is pretty and funny, and has several numbers of marked merit; but apart from the fact that it is new, and Erminie very old, there is no reasonable comparison, either in the music alone, or in the field for dramatic action afforded the soloists. Among its best numbers are the song of the "Daisy Guild," the duet a la minuet between the Captain and the donna, and the pretty Spanish song for Miss Vincent—"Camilla"—and chorus, in the last act.

As for the central figures, about which the delightful chorus march and sing, what need be said to people that have heard again and again these same favorites? Simply, then, that they are the same, Mr. Carleton as round-voiced, as dignifiedly humorous, as satisfying; Miss Vincent, beautiful; Miss Wisdom, overpowering; Miss Bandet, coquettish; Mr. Taylor, so honestly and improvingly funny; all as of yore.

Miss Lane, the only new face among

The dead man's body was left aloue in a room all night, and toward morning Judge Robinson persuaded an aged celored man, Alfred Joues, to leave the sick bed of his wife and go with him to the scene of the murder on the plea that he was afraid to go aione. Jones had no previous knowledge of the murder, and his observation of the dead body with its disguise and murderous weapon cost him his life. When afterward an attempt was to be made to make out that Bolton was an unarmed, undisguised and peaceful visitor to the polling place, who had been slain by the unprovoked violence of colored men, Jones was arrested and hung upon no conceivable incentive but to make away with his testimory, the wayder of the two loss and

As to the murder of the two, Jones and Feider, by the mob who lynched them at Brenham, the committee says: "These murders were each committed upon the motive and in the interest of the policy and purpose that had countenanced and caused the raids on the ballot-boxes at that election. The sacrifice of these worthy and blameless lives was demanded for the suppression of their, evidence, which would have demonstrated that the death of Bolton had befallen him in the act of a presoncerted attack upon the ballot-box to defeat the Republican ticket. the proper time move to commit the bill with instructions to include legislation in reference to the Central Pacific Raliroad Coupany.

Mr. Frye stated that the Central Pacific had not been included in the bill because the attorneys who had appeared for that company had not seemed to manifest any great desire for a settlement and because there was not a parallel bet ween the cases of the Union Pacific and Central Pacific. The question of Central Pacific had been again raised by its president (Huntington), who had appeared before the committee and had presented the bill which had been introduced by Mr. Mitchell as a substitute for the pending bill, adding 10 or 12 sections for a settlement with the Central Pacific. It seemed to him that those matters could be settled in separate bills a good deal better than they could be in one bill. He recognized that there was an lumense difference between the situation of the Union Pacific and Central Pacific, that much more lenience must be granted to the Central Pacific than to the Union Pacific. If the Government expected to get its debt paid by the Central Pacific, that company should have a very long time-to make payment.

The report of the committee was then sent to the Clerk's desk and read.

Mr. Mitchell made the motion, of which he had given notice, to recommit the bill, and stated the reasons why he thought the motion 'should prevail. He spoke of the enormous amount that would be due by the Pacific railroad companies to the Government at the time of maturity of the debt of \$145,924,000. Any legislation having for its purpose payment of that almost fabulous sum, had to be regarded as of the very utmost importance. It was not his purpose to attent and adjustment of its debt with the Central Pacific, that during the last month that company has shown a disposition and a very great desire to make some settlement and adjustment of its debt with the Central Pacific, that during the last month that company has shown a disposition and the very part of it was to be postponed Py Telegraph to The Times.

LITTLE ROCK (Ark.), Feb. 4.- By the Associated Press.] Powell Clayton and Judge W. H. H. Clayton submit to the press and public tonight a lengthy statement of the facts leading up to the assassnation of their brother, Hon. John M. Clayton, at Plummerville, January 29th.

Clayton, at Plummerville, January 29th. In the statement they say that all are agreed that it was a political assassination, and it is therefore necessary for them to refer to the political conditions and circumstances surrounding it. This they do in no partisan spirit, but only that justice may be done their brother and that a knowledge of the facts may lead the people of the State to correct the evis from which this and other great crimes have arisen.

The statement goes on at great length to detail the affairs in Conway county since early last fail. It seems to show that the political affairs of the county were practically domin ted by a club organized as a political association, but which before election resolved itself into a militia company and was furnished with arms and ammunition by the Governor of the State. On election day this comoany had their loaded guns deposited in a convenient place in the building where the election was held. The Republican judge was refused admittance, and a man nominated by Stowers, commander of the militia organization, was selected in his pi-ce, making the election board solidly Democratic. This was at Morriliton, while at Plummervilla the same thing was done, the places of two Republican judges being usurped. This was at the September election, was mobbed and so injured that he died within a short time.

The statement then goes on to detail the circumstances of Clayton's contest and morriliton to use his endeavors to secure an honest election, was mobbed and so injured that he died within a short time.

The statement then goes on to detail the circumstances of Clayton's contest and murder, and also tells of an attempt made on the 17th of December by unknown parties to assassinate Charles Wahl, Republican United States Supervisor. He was severely wounded, and as soon as able went to Little Rock for safety, and has since remained there.

The body of John M. Clayton was left lying in the room on the floor from the time he was shot until 3:30 the next afternoon, when his brother arrived. Up to that time the Sheriff of the county had not appeared. The Clayton brothers say in conclusion that they stand ready to substantiate every one of the facts set forth in every essential particular, and believe that they will be a material link in the chain of circumstances surrounding the murder of their brother.

That Dispatch About Teachers' Qualifications in New Mexico.

SANTA FE, Feb. 4. [By the Associated Press.] A dispatch sent out February 2d, dated Albuquerque, from some unknown correspondent, stating that a bill had been introduced in the Lexislature requiring that school teachers should know how to read and write, is a misrepresentation, made apparently to influence Congress against the admission of New Mexico to Statehood. There is and has been for years a statute of the New Mexican law requiring all teachers to pass an examination in all elementary branches usually taught in the public schools. The excuse for this misrepresentation is an act which required an educational qualification for school directors and all county officers, which act has passed. The people of New Mexico are in favor of Statehood, which was demonstrated by the Territorial convention lately held at Santa Fé, which declared in favor of it earnestly and unanimously. The Legislature has also unanimously passed a memorial to the same effect.

Candidate for counce men from Boyte Heights.

Mr Young, the aspirant for the office of Councilman from the new Minth Ward, is well known in this city. Having lived here a number of years, he has become popular among the business men of the city as a man of good business ability and exceptional integrity. Mr. Young is sufficiently well acquainted with the city's needs to properly represent them in the Council. He is a competent engineer, and is thoroughly versed in sewerage matters. This knowledge would doubtless prove valuable to him while in the Council. He has also had a wide experience in streat work, contracting for grading, paving, etc. If elected to the office of Councilman, he will doubtless maintain his a ready enviable reputation for push, enterpies and public spiritedness, and prove himself worthy the support of his constituents and able to properly represent their interests pertaining to affairs municipal, as they are presented from time to time, before the Common Council.

Cheap Lands. Good Lands. Prices and Terms to Enceurage Settlers.

So much has been said and written about the high prices for ordinary farming and fruit land in Southern California that many Eastern people think that no good land can be had at less than \$200 per sere in an good locality. But: fyou will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at 55 to 15 per sere, and every one of these ranges contains more or less series. ranges at 55 to 415 per acre, and every one of these ranges contains more or less wood farming land. You can buy first-class valley lands for 850 to 675 per acre, and smal tracts of 10, 20 or 40 acres, for fruit farms, at about the same price. Colonies who want from 1000 to 5000 acres can be placed on ane lands, suitable for dividing among their metabors, at 25 to 540 per acre. This com: any cares nothing for lands. We own nearly 100,000 acres, and have notoms, and ake no inflated prices for their lands. We own nearly 100,000 acres, and have a perfect and undisputed title. The object is to furnish good lands, to actual settlers, at prices within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire homes in as attractive and healthful pair of Southern California. We do not olaim to have the best land in the fratte, and at present are not directly on a railroad, but expect to be before long. But we do claim to offer better land and more advantages and one cashe terms and healthful pair to fish the contractive and healthful pair to offer the pair and healthful pair to fish the formation of the poster land to get detailed information about these lands. A SCOTTISH CENTENARIAN.

The Mode of Life of a Man Who Is

105 Years Old.

Peter Laing, a Scotchman, who has
just entered upon his 105th year, is the
subject of an article in the Pall Mall
Gazette, which says of him: "Peter
was a hard drinker in his day, the nature of his calling—that of a carter—
and the character of his associates,
tending in that direction. It was his
frequent custom after a heavy carouse
to breakfast in the early morning on a and the character of his associates, tending in that direction. It was his frequent custom after a heavy carouse to breakfast in the 'early morning on a handful of oatmeal taken from the miller's heap and soaked with water from the mill-lade. On many a morning this rough breakfast sufficed, with an occasional 'dram,' for the performance of a day's work which few of his fellows were equal to. When upward of 80 years of age Peter was able to carry a sack of grain on his back of a weight that would crush in the attempt many a man accustomed to such work of half his years. Living much in the open air, always poorly clothed, and bestowing little attention as far as food is concerned on the 'inner man,' Peter seems never to have been afflicted with the common ailments which might be expected to follow such a mode of living. In respect to bodily attire, Peter was always somewhat indifferent, and he went about his avocation in all weathers with his breast exposed. The old man feels uncomfortable even now when closely muffied up at the throat or chest. It is the centenarian's custom to retire to rest about 7 or 8 o'clock in the evening, and, as his habit always has been, he gets up by 3 or 4 in the morning, and soon after breakfast on oatmeal and water, or, mayhap, potatoes. Peter has a relish for this early meal that is only common to him in the morning. He finds a solace, however, throughout the day in his tobacco pipe, and is generally ready to enjoy a smoke and 'crack' with any visitor who may look in upon him in his lonely room.'

HE SAVED MY LIFE.

I consulted a great many physiciaus; none gave me any hope. At last I went to see one who had considerable resutation in the treatment of lung diseases. He gave me a thorough examination, and said my right lung was badly ulcerated, but if the disease could be kept from extending to the left, which was probable, I could be cured. I took new courage, and commenced treatment I had had many sovere hemorrhages from the lungs; was so debilitated that I was a mere skeleton; could not sleep at night for the cough and expectoration of mucus, and during the day I feit that my efforts to g t un the corruption must disgust my nearest fremds. Could not sit up more than half of the time, and was unable to take any exercise on account of shortness of breath. My appoite was poor, and food would often distress me greatly, and nightswests were taking what little strength I had left. I am satisfied that Dr. W. N. Davis, 45% North Spring street, saved my life, as I could see that from the first my strength increased, my breath beastonish even myself. I am in perfect health now, and have scared by had a day's slokness for over a year. My cough is gone, all the di tressing symptoms have disappeared, even to the hawking and spitting of mucus from the themself in the head. I make this statement for the benefit of those who are troubled as I was, and to perhaps convince them that they was, and to perhaps convince them that they will charge you nuthing for an exam mation, and will tell you frankly if he can cure you.

Go and have a talk with the Doctor. He will charge you nothing for an examination, and will tell you frankly if he can cure you. For further information address Warren C. Lindsay. Southwestern House, Mayo street, or postoffice, general delivery.

The above is but one of the many testimonias Dr. W. N. Davis has on file at his office, 45% North Spring street. Hereafter a new one will be published every week, and we will endeavor to convince he most skeptical that many socialied incurable diseases can be oured. He te is not what he can do, but what he has done, and if sin one doubts his ability he invites an investigation, as every one he invites an investigation, as every on whose name is used will reside in the cit, and can be interviewed.

Who is Your Best Friend?
Your stomach, of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair, honorable chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink, wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right—if you are troubled with heart-burn, diszinces of the head, coming up of the food after eating, biliousness, indigestion or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.
